- Finnish (Beginner)

PROFILE

Pursuing a bachelor's degree in software engineering at JAMK University of Applied Sciences as a third-year student. Experienced in mobile app development with some knowledge of full-stack development. Eager to learn, grow, and embrace new opportunities. Collaborative and effective in team environments with strong communication skills. Expected to graduate in the upcoming Spring semester.

WORK EXPERIENCE

Music.Info Finland Oy, Jyväskylä, Finland   5 / 2024 - 9 / 2024
Internship - Software Developer

- **Mobile Application:** Developed mobile applications to enhance the music experience for users by integrating the music streaming platform with smart devices. The app provides a seamless user-friendly interface for both Android and iOS.

   Technologies Used: *React Native, REST API, OAuth, TypeScript, IOT .*

- **Refactored Legacy Project:** Replaced outdated APIs that were not functional, ensuring the project continued running smoothly for users. Integrated new APIs using an improved method, enhancing the system's reliability and usability.

   Technologies Used: *Angular Js, APIs*

- **Framework upgrade for legacy project:** Rebuilt the UI and integrated new APIs, using server-side rendering to improve performance and speed. Set up Docker and Nginx to enhance application efficiency and simplify management. The upgrade also made the project more maintainable and prepared it for future feature additions.

   Technologies Used: *Angular, Docker, Nginx, SSR*

- **Scrum Master:** Led agile teams by organizing sprint planning and retrospectives while maintaining Jira and Confluence to keep everyone updated on progress. Improved team meetings by fostering a friendly and collaborative environment, ensuring smoother and more effective communication between developers and product owners.

HOBBIES

- Listening to music
- Traveling
- Reading books
- Spending time in nature
- Exploring new sports like skiing and swimming

EDUCATION

Jamk University of Applied Sciences (2022- current)

Information and Communication Technology, Bachelor of Engineering
